

## Summer Program Opportunities

*The CHS Guidance Office has no affiliation with and does not endorse the organizations, programs or websites below, which are provided solely for your reference. Students are responsible for conducting their own research to determine cost, requirements, and suitability to their needs before enrolling in any program. Always contact the organization to determine whether a program will be in existence for the summer in which you are interested. Cullman City Schools makes every effort to ensure that published information is accurate and current. However, CCS makes no claims, promises, or guarantees about the absolute accuracy, completeness, or adequacy of the contents of this summer program list.*

*(This list was distributed to all 9<sup>th</sup>, 10<sup>th</sup>, and 11<sup>th</sup> grade students with their report cards on February 22, 2008)*

Students, this summer is the ideal time for you to take advantage of the variety of programs offered at colleges and universities across the country and abroad. Please check the deadlines now for any of the programs that you might have an interest in, so you don't miss out on any scholarship opportunities. This list of programs is *just a sampling* of what is available. If you are interested in locating a wider variety of programs or programs with a specific emphasis (example: math, science, music, writing, theater), the Internet is a wealth of information. Use any Internet search engine and type in "summer programs for high school students" or "summer enrichment programs for high school students" or "summer opportunities for high school students". Several high schools have wonderful lists of summer programs already compiled and organized. Here are a few of my favorite high school summer program websites:

Grissom High School in Huntsville, AL - <http://www.hsv.k12.al.us/schools/high/ghs/counselor/preview.htm>

Hohonegah High School in Illinois - [http://www.hononegah.org/hono2/gifted/Sum\\_enrich.html](http://www.hononegah.org/hono2/gifted/Sum_enrich.html)

Bishop Guertin High School in New Hampshire - <http://www.bghs.org/guidance2/04summerprograms.asp>

Students, I encourage you to explore the possibility of attending a summer enrichment program. If you locate a program and need assistance with the application or obtaining more information, please stop by the Guidance Office and see me. I look forward to working with you!
